

DataCOT

DataCOT is a rugged compact steel or aluminum design equipped with Captive Fasteners for added security or high vibration applications with SATA or SAS drive and host capabilities. Its versatile design addresses today's weight, width, height and depth requirements while providing exceptional drive protection and flawless integration within a 5.25" peripheral bay. Interconnect mating connectors support 50K interchange for a lifetime of continuous insertion cycles. Board and connector quality and durability assures data signal integrity for the life of the product.

Features

- Compact mechanical and lightweight design
- Captive Fasteners
- Available in steel or aluminum construction
- Supports any 3.5" low profile 3Gbp/s SATA or SAS disk drive
- Rear connectors SATA and SAS capability
- Includes 15pin and 4pin power connectors
- 50K high rated mating connector(s)
- PCB board thickness 0.093
- Handle non-mechanical
- Key lock and activity status LEDs
- MagLev cooling fan
- Internal cable-less connector
- Limited lifetime warranty
- Manufactured in USA – ISO 9001:2000
- UL recognized
- RoHS compliant
- Hot swap capability (optional)
- Dimensions: 5.75"W x 1.63"H x 7.90"D
- Weight: Steel complete assembly 2.9 lb
- Weight: Aluminum complete assembly 1.3 lb

Applications

- Drive Swapping
- High Vibration Environments
- Physical Data Security
- Backup
- Testing
- Transporting Data
- PC Sharing
- Media Archiving
